

BHARATHI E

Chennai, India

+91 7825082004 | bharathielumalai5335@gmail.com | <https://github.com>

SUMMARY

Motivated and detail-oriented fresher seeking opportunities in Web Development. Skilled in responsive web design, full-stack development fundamentals, SQL, and database management. Passionate about building efficient web applications, solving real-world problems, and continuously enhancing technical skills.

WORK EXPERIENCE

BMW Groups, Chennai – Web developemnt Intern

March 2026 - May 2026

- Developed responsive web application components using Angular, HTML, CSS, and TypeScript, improving user interface functionality.
- Wrote and optimized SQL queries to manage and retrieve data from relational databases and integrated them with application features.

Ford Motor Company, Chennai – Web Development Intern

Jan 2025 To Feb 2025

- Developed a Production Support Portal using Angular, Python, and RESTful APIs, streamlining internal workflows and significantly improving the efficiency of production support processes.
- Gained hands-on experience in full-stack development, API integration, and responsive UI design

PROJECTS

Intelligent College Information Assistance (ICA-RAG)

Nov 2025

- Developed an AI-powered conversational assistant for educational institutions using Retrieval-Augmented Generation (RAG) to answer student queries from institutional documents.
- Integrated a Flask-based backend API with a web interface to enable real-time query processing and context-aware response generation using Large Language Models.

GowSan Overseas Education Consultancy Website

Sep 2024

- Developed a responsive overseas education consultancy website using React.js for students seeking international study opportunities.
- Implemented responsive UI designs, reusable components, client-side routing to improve maintainability user experience.

TECHNICAL SKILLS

- Programming:** Python, SQL, JavaScript
- Web Development:** HTML, CSS, Angular
- Backend & APIs:** (Flask / FastAPI), REST API Integration
- Data Analytics:** Excel, Power BI
- AI & ML:** Data Preprocessing, RAG, Vector Databases
- Tools:** Git, GitHub, Colab, VS Code
